SITUATION SUMMARY

6.8 Magnitude Earthquake, New Britain, Papua New Guinea

- On 04/30/15 at 0345 hours a 6.8M earthquake (EQ) occurred near New Britain, Papua New Guinea.
- A Tsunami Information Statement was generated by the National Tsunami Warning Center. There was no tsunami danger for California.
- · The California State Warning Center conducted a roll call of all California Coastal and Delta Counties.

7.8 Magnitude Earthquake, Kathmandu, Nepal

In response to Nepal's request for urban search and rescue (US&R) assistance the United States State Department, U.S. Agency for International Development's, Office of Foreign Disaster Assistance (USAID/OFDA) has deployed two INSARAG-Classified Medium US&R teams: Fairfax County, VA (VA-TF1, identified by USAID/OFDA as USA-1), consisting of 54 personnel to include six Canine Search Teams; and Los Angeles County, CA (CA-TF2, identified by USAID/OFDA as USA-2), consisting of 57 personnel to include six Canine Search Teams.

- · USA-1 is in Nepal.
- USA-2 is in Nepal.

Situation

• At 2311 hours on 04/24/15 a 7.8M EQ occurred in Nepal, approximately 40 miles away from the capital of Kathmandu. The EQ was also felt in Pakistan, India, Tibet, Bangladesh, and China. The earthquake and its aftershocks have resulted in a significant number of fatalities and injuries, with widespread damage to buildings and infrastructure. As of 1200 EDT 29 Apr, the Government of Nepal reports 5,238 (+556) fatalities and 10,348 (+1,108) injuries.

SITUATION SUMMARY

Brawley Incident, Fresno, Fresno County (NEW/FINAL)

At approximately 0350 hours, 4/30/15, a fire occurred at a third party lumber and utility pole supply yard. Per Cal OES FDO, the fire is contained to the facility and is there is no anticipated need for additional resources beyond the first alarm. The fire is burning near major highways in the city and will be visible to the public and travelers. San Joaquin Valley Air Pollution Control District has issued a Smoke Health Caution. Smoke may periodically affect air quality in Fresno, Kings, Tulare and the valley portion of Kern counties until the fire is extinguished. CUEA reports that this incident has no impact to any PG&E facilities. Per Cal OES LDO, there are no evacuations and no road closures due to this incident. Cal OES FDO is monitoring.

Weather of Concern

• No significant Weather Watches or Warnings are in effect.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

High pressure will bring dry conditions to northwest California the rest of this week. Interior temperatures will be well above normal today into the weekend.

Medford Weather:

A developing thermal trough and a building ridge overhead will bring warming conditions to the forecast area over the next two days with Friday being the warmest day. Offshore flow will bring very warm temperatures to the coast along with gusty northerly winds.

Reno Weather:

Temperatures will remain well above normal this week. A weak low pressure trough will develop and near the west coast for the end of the week and this weekend. This will result in a return of showers and thunderstorms.

San Francisco Weather:

Warm to hot weather will develop today as light offshore flow develops over the bay area. Some cooling will develop as early as Friday afternoon as the sea breeze returns to the coast. More noted cooling back to seasonable temperatures will occur this weekend as the marine layer returns to the coast with night and morning low clouds followed by sunny and mild afternoons.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Mainly dry and warm weather with above normal temperatures can be expected through early next week. A weak trough will bring a chance of showers or thunderstorms near the Sierra crest the next several days. Breezy north winds are expected today mainly northern Sacramento Valley and on the west side of the Sacramento Valley. Low pressure will bring a more widespread threat of showers or thunderstorms during the middle of next week but still mainly over the mountains.

Hanford Weather:

Mainly dry weather and above normal afternoon temperatures can be expected over the central California interior through the weekend. Isolated thunderstorms will be possible over the sierra each afternoon.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure will bring above normal temperatures and fair skies into Friday. By early next week a low will arrive to deepen the overnight marine layer and cool the afternoon temperatures to near normal with the nighttime lows to be above normal into midweek.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

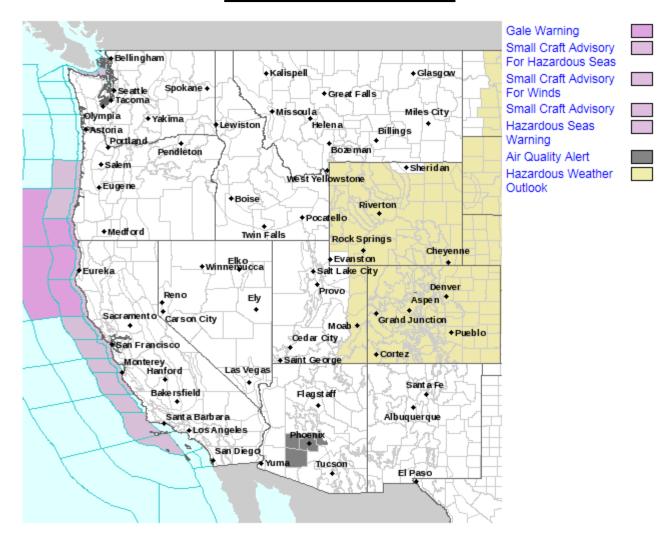

High pressure over the southwest will bring sunny hot days inland through Friday but slightly cooler at the coast. The high pressure will break down allowing the marine layer to develop and a cooling trend for all areas over the weekend. The cooler weather with more coastal clouds are expected next week.

Southeast California Weather:

The warming trend will continue the next several days with many desert locations forecast to reach the triple digits today and Friday. Temperatures will cool slightly through the weekend as a weak storm system moves in which may lead to a few showers for higher elevation areas early next week.

RECOVERY ACTIVITIES

Round Fire, Mono County

- On Day 29, received confirmation sampling results from six sites and two re-tests. Of the six, four sites were below objectives and two were not. Of the two re-tests, both were below objectives. All hazard trees were removed on Day 29. Hydro-seeding of private lots started.
- Tree falling crews completed removing, bucking, and chipping hazard trees on the private home sites. Contractors continued installing erosion control devices and working on final punch list.

Project Totals as Day 29:

37	Homeowners who registered for the removal project.
4	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
37	Debris removal completed.
37/35	Confirmation sampling completed/approved.
34	Tree Removal Completed (35 homes have hazard trees).
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Daily Tonnage:

Category	Day 28	Day 29
Debris/Ash	0	0
Soil Disposed	0	0
Metal Recycled	0	0
Concrete	0	0
Recycled		
Total	0	0

Estimated Project Total Tonnage for the Project as of Day 29:

Category	Total Tons
Debris and Ash Disposed	3,459
Soil Disposed	4,480
Metals Recycled	1,476
Concrete Recycled	3,916
Total All Categories	13,331

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take
 place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT

Cal EOC Incident - 2014 Drought

Local Emergency Proclamations:

A total of 55 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 24 Counties: El Dorado, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 10 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Montague (Siskiyou County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), and City of West Sacramento (Yolo County), City of Willits (Mendocino County), City of Manteca (San Joaquin County).

California Specialized Training Institute

CSTI Course Catalog

CSTI on the web

CSTI Course Schedule

The California Specialized Training Institute (CSTI) delivers specialized training throughout California as well as at its main campus in San Luis Obispo year-round. Currently, CSTI offers over 100 course titles in the disciplines of emergency management, criminal justice/officer safety, terrorism, hazardous materials, disaster mitigation, preparedness and recovery, and crisis communications.

CSTI can also develop custom courses for your organization or jurisdiction. CSTI uses national standards and curriculum as the core of its training delivery program. Many of CSTI's courses can be applied to FEMA's Advanced Professional Series, or the California Governor's Office of Emergency Services Specialist Certificate and Credentialing programs.

CSTI delivers training to state and local government agencies, tribal organizations, businesses, non-profit organizations, and numerous other organizations. CSTI designs a variety of training for entry-level, mid-career, senior management, and executive level
